

# Apple & Orange Bunting

## Items needed:

- Dried Pink Lady® Apple slices
- Dried orange slices
- Natural jute or cotton string
- Wooden skewer

## How to assemble:

1. Using the wooden skewer, carefully make a hole in the middle of the orange slices, and if needed, in the centre of the Pink Lady® Apple slices.
2. Thread the jute or cotton string through the middle of the apple and orange slices alternating with apples and oranges.
3. Make the garlands or buntings as long as you need – an ideal length for decorating a Christmas tree is several metre long lengths. Bunting to decorate the house and especially the kitchen can be longer.
